#### **RESEARCH ASSISTANT EXPERIENCE**

Graduate Student Researcher	Personal genomics researcher database. I helped to organize, locate and summarize records and coordinated with other research staff. Based at Department of Social and Behavioral Sciences, University of California, San Francisco. PI: Catherine Bliss, Ph.D.	2015
Student Member	Working group developing a white paper on the social and scientific impact of precision genomic medicine interventions targeted by race/ethnicity or gender. Based in Center for Transdisciplinary ELSI Research in Translational Genomics, UCSF, UC Hastings School of Law, and Kaiser Permanente Northern California. Co-PI: Barbara Koenig, PhD.	2013-2015
Graduate Student Researcher	Quantitative research project of survey data on older tobacco smokers and lung cancer screening. I performed chi-square and t-tests to identify differences between current and former smokers and worked with PI to conduct binary logistic	2014

---

\* Name changed to Visser from Dowdell in 2019.

	<p>regression analysis to predict screening for lung cancer based on concerns and beliefs about lung cancer risk. Based in Department of Physiological Nursing, University of California San Francisco. PI: Janine Cataldo, RN, PhD, FAAN</p>	
Graduate Student Researcher	<p>Multiple research projects related to tobacco control research: (1) I revised an NIH grant application for mixed methods research on tobacco use, perceptions, and marketing of e-cigarettes in older smokers. (2) I prepared IRB materials, revisions to mobile health game content, and research procedure materials for a feasibility/usability study of a mobile health game intervention to support assertive communication of lung cancer patients in virtual clinic visits. Based in Department of Physiological Nursing, University of California San Francisco. PI: Janine Cataldo, RN, PhD, FAAN</p>	2014
Graduate Student Researcher	<p>EngageUC: Engaging University of California Stakeholders for Biorepository Research. I was a research team member implementing a deliberative community engagement strategy. Multi-institution team brought together a demographically and linguistically diverse sample of community stakeholders in Los Angeles and San Francisco to provide input on procedures for informed consent and the return of results in genomic research to individuals and communities. I worked with project staff and mentor to develop community engagement agenda and briefing book on biobanking at University of California, conducted data collection, analyzed preliminary data and drafted research reports. (UCSF-CTSI Grant Number UL1 TR000004-07S2). Program Directors: Sarah Dry (UCLA), Elizabeth Boyd (UCSF), and Daniel Dohan (UCSF). Co-PI: Barbara Koenig, Ph.D (primary mentor).</p>	2013
Co-Principal Investigator	<p>Emotions and the Experiences of Front Desk Personnel at Clinics that Provide Abortions. Collected and analyzed data for my interpretive phenomenology research project in the advanced qualitative methods courses in the Sociology PhD Program at UCSF. PI: Howard Pinderhughes, Ph.D.</p>	2012-2013
Graduate Student Researcher	<p>Measures of Women's Empowerment. I developed repository of measures of women's empowerment in global health research for Center of Expertise in Women's Health &amp; Empowerment, University of California Global Health Institute. PI: Shari Dworkin, Ph.D.</p>	2012-2013

Research Assistant	Race as a Risk Factor. I performed literature review and summary of clinical and social scientific research studies that asserts the use of race as a risk factor for diseases. University of California Hastings School of Law. PI: Osagie Obasogie, JD, Ph.D.	2011-2012
--------------------	---	-----------

**PROFESSIONAL EXPERIENCE**
